SUMMARY

To Start my career as a Frontend Developer Trainee, applying my skills in HTML, CSS, JavaScript, and React to develop responsive and user-friendly web application while contributing to real-world projects and gaining practical industry experience.

EDUCATION

BachelorofScienceinComputerScience: 2023-2026
DR.BabasahebAmbedkarMarathwadaUniversity Sambhajinagar - 7.47 CGPA

HSC: 2020 – 2021

Pandit Jawaharlal Nehru Vidhyalaya Ashti - 73.33%

SSC: 2017 – 2018

Pandit Jawaharlal Nehru Vidhyalay Ashti - 75.40%

SKILLS

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap, Responsive Web Design
- **Backend:** Java, Spring Boot, REST API Integration
- **Database:** MySQL, SQL
- **Tools & Platforms:** Git, GitHub, VS Code, Vite

SOFT SKILLS

- Problem-Solver | Effective Communication | Adaptability

PROJECTS

Inkora | React.js, JavaScript, Spring Boot, Java, MySQL | GitHub Repository
Full-Stack Blogging & Publishing Platform

- Developed a full-stack blogging platform that enables users to create, customize, publish, and manage blog posts with personalized themes and a community-driven reading experience.
- Built a responsive React frontend and integrated REST APIs with a Java Spring Boot backend and MySQL database. Implemented features including JWT-based authentication, four dynamic blog themes, likes, bookmarks, comments, and creator-following functionality.

KeyStroke | React.js, JavaScript, CSS | GitHub Repository
Interactive Typing Practice Platform

- Built a responsive typing practice application featuring real-time typing feedback, words-per-minute (WPM) and accuracy tracking, and persistent high scores to help users monitor their progress.
- Designed a neomorphic interface with an animated 3D keyboard, customizable themes and fonts, adjustable typing speed, and an interactive leaderboard to deliver an engaging and personalized user experience.

Personal Portfolio | React.js, JavaScript, CSS, Vite | GitHub Repository | Live Demo
Editorial-Style Developer Portfolio

- Designed and developed a personal portfolio with an editorial-inspired layout, interactive project cards, smooth hover animations, and responsive page layouts to showcase technical skills and projects.
- Implemented reusable UI components, a centralized design system using CSS custom properties, and a private content management dashboard for managing portfolio information, projects, skills, and experience entries.
